DECRA-SEAL NATURAL is a low-VOC, water-based sealer that enhances the natural color and features of decorative concrete and hardscapes, unglazed tiles, concrete pavers, and a variety of porous natural and artificial stone. DECRA-SEAL NATURAL is a penetrating water repellent that chemically bonds to the substrate, increasing the service life by reducing water absorption and penetration.

FEATURES/BENEFITS:

- Enhances and enriches the colors of the substrate
- Does not create a glossy finish, preserving the natural look of the substrate
- Repels water
- Reduces water absorption and penetration into the substrate
- Low VOC
