W. R. MEADOWS certifies the following information for ECO-COAT Concrete Form Release Agent:

LEED v4.0 - Building Product Disclosure and Optimization (MRc3 and MRc4):

Not applicable as this credit applies only to permanently installed products.
This product is applied to temporary formwork.

LEED v4.0 – Indoor Environmental Quality (EQc2):

VOC Emissions: Not Applicable. This product is applied to temporary formwork.
This product prevents concrete adhesion to formwork.
This product is not a wall, floor, or ceiling coating and is not for decoration or protection.

VOC Content: 0 g/L SCAQMD Rule 1113

Biodegradability

ECO-COAT, Concrete Form Release Agent, is made of canola oil. When canola oil is disposed of, it undergoes biodegradation. Microorganisms, such as bacteria and fungi, break down the oil's fatty acids into simpler compounds like carbon dioxide, water, and biomass. The biodegradation rate depends on many variables, such as temperature, moisture, oxygen availability, and the presence of microorganisms.

Asbestos Statement

This product does not contain intentionally added asbestos. To the best of our knowledge and based on supplier disclosures and current manufacturing practices, no asbestos-containing materials are used in the formulation or production of this product.

If field sampling and/or field or laboratory testing are required, W. R. MEADOWS cannot be held responsible for any cost incurred if this product is used prior to receipt of that approval.

Should you have any questions or require additional information, please feel free to contact Technical Services or your local W. R. MEADOWS Representative.

Sincerely,

Kimberly Ann Lombardozzi, LEED AP ID+C, WELL AP, fitwel Ambassador
